

Albion Environmental Ltd Centre is approved by both WAMITAB and SQA to provide training and assessment in the full range of WAMITAB awards, including composting and treatment of hazardous and non-hazardous wastes.

The centre was established in 2001 and we have worked hard to develop our position as the main WAMITAB provider in Scotland. This hard work and innovation has paid dividends and we are now the preferred provider for a range of clients including Shanks, WRG, Sita (UK), Viridor and a range of local authorities, transfer station operators and not for profit organisations.

Our other key strengths are we work to the needs of the candidate (and the candidates employer). We are not just the youngest centre in terms of when we started but we also have the youngest members of staff. All our staff are **actively involved** within the waste industry and can provide the level of support, experience and **up to date knowledge** of the legislation which our customers expect.

As a centre we are proud of the reputation we have gained in this short time but we are determined to continue to improve the level of service we provide. To do this we continue to be innovative in the quality and level of service we provide.

We provide as standard the following-

- **Easy to understand award Induction via a detailed 'PowerPoint' presentation covering all aspects of the portfolio and award.**
- **Blank Portfolio - Each candidate is provided with a portfolio customised with their details, with step-by-step instructions for easy completion. This is also available in electronic format if required.**
- **Innovative use of audio and video recordings to reduce the quantity of paperwork required.**
- **Detailed plan agreed with the candidate on how to progress the award. All our work is based around the strengths and weaknesses of the candidate, to ensure they are getting the maximum out of the qualification.**
- **Coming soon in late 2005 / 2006, web based forum board for all these minor issues candidates have and may wish to discuss with other candidates.**

Our existing candidates are our best advert for the services we provide, and we are pleased to put prospective candidates in touch. Also we can provide relevant C.V's and CPD record for all trainers.

Full range of WAMITAB awards is provided across Scotland, England and Northern Ireland. If you wish to talk to existing clients please do not hesitate to [contact us](#).
