

WAMITAB

Waste Management Industry Training and Advisory Board

Certificates of Technical Competence

COTC

Qualification Summaries

WAMITAB

Waste Management Industry Training and Advisory Board *Level 3 in Waste Management Operations: Civic Amenity Site*

MANDATORY UNITS

Candidates must achieve all **SEVEN** mandatory units

- 1CA Control the reception of civic amenity wastes
- 2CA Control the movement, sorting and storage of civic amenity wastes
- 3 Monitor procedures to control risks to health and safety (Employment NTO Unit B)
- 4CA Control work activities on a civic amenity site
- 6CA Control the transfer of recovered and waste materials from civic amenity sites
- 8CA Ensure protection of the environment on civic amenity sites
- 11 Create effective working relationships (MCI Unit C4)

OPTION UNITS

Candidates must achieve at least **ONE** optional unit from those shown below

- 9 Support the efficient use of resources (MCI Unit B1)
- 10a Contribute to the selection of personnel for activities (MCI Unit C7)
- 10b Review the performance of teams and individuals
- 12 Provide information to support decision making on a waste management site

ADDITIONAL UNIT

The following unit is not part of the qualification but is available as an additional unit if required:

- 13 Review and develop your performance at work

WAMITAB

Waste Management Industry Training and Advisory Board *Level 3 in Waste Management Operations: Closed Landfill*

MANDATORY UNITS

Candidates must achieve all **SEVEN** mandatory units

- | | |
|-----|--|
| 3 | Monitor procedures to control risks to health and safety (Employment NTO Unit B) |
| 4CL | Control site operations on closed landfill sites |
| 5 | Control maintenance and other engineering operations |
| 8CL | Ensure protection of the environment on closed landfill sites |
| 9 | Support the efficient use of resources (MCI Unit B1) |
| 11 | Create effective working relationships (MCI Unit C4) |
| 12 | Provide information to support decision making on a waste management site |

OPTION UNITS

Candidates must achieve at least **ONE** of the optional units shown below:

- | | |
|------|---|
| 6CLa | Control the restoration of a closed landfill site |
| 6CLb | Confirm and maintain the restoration status of a closed landfill site |

ADDITIONAL UNIT

The following unit is not part of the qualification but is available as an additional unit if required:

- | | |
|----|---|
| 13 | Review and develop your performance at work |
|----|---|

WAMITAB

Waste Management Industry Training and Advisory Board **Level 3 in Waste Management Operations: Inert Waste Landfill**

MANDATORY UNITS

Candidates must achieve all **FOUR** mandatory units

- 3 Monitor procedures to control risks to health and safety (Employment NTO Unit B)
- 5 Control maintenance and other engineering operations
- 7 Control improvements to waste management operations
- 11 Create effective working relationships (MCI Unit C4)

OPTION UNITS

Candidates must achieve at least **SIX** optional units - one from each of groups A, B, C, D, E and F as shown below:

Group A: Waste reception

- 1In Control the reception of inert waste

Group B: Waste handling

- 2In Control the movement, sorting and storage of inert waste

Group C: Control site operations

- 4LIn Control site operations for the disposal of inert waste

Group D: Preparation and restoration of landfill sites or disposal of outputs and residues

- 6a Restore and prepare for aftercare on landfill sites
- 6b Develop schemes for the restoration and aftercare of landfill sites
- 6c Prepare landfill sites for the acceptance of waste

Group E: Environmental protection

- 8L Ensure protection of the environment on landfill sites

Group F: Management

- 9 Support the efficient use of resources (MCI Unit B1)
- 10a Contribute to the selection of personnel for activities (MCI Unit C7)
- 10b Review the performance of teams and individuals
- 12 Provide information to support decision making on a waste management site

ADDITIONAL UNIT

The following unit is not part of the qualification but is available as an additional unit if required:

- 13 Review and develop your performance at work

WAMITAB

Waste Management Industry Training and Advisory Board **Level 3 in Waste Management Operations: Inert Waste Single Waste Stream**

MANDATORY UNITS

Candidates must achieve all **FOUR** mandatory units

- 3 Monitor procedures to control risks to health and safety (Employment NTO Unit B)
- 5 Control maintenance and other engineering operations
- 7 Control improvements to waste management operations
- 11 Create effective working relationships (MCI Unit C4)

OPTION UNITS

Candidates must achieve at least **SIX** optional units - one from each of groups A, B, C, D, E and F as shown below:

Group A: Waste reception

- 1SWS-In Control the reception of inert waste on a single waste stream site

Group B: Waste handling

- 2SWS-In Control the movement of inert waste on a single waste stream site

Group C: Control site operations

- 4SWS-In Control site operations for the disposal of inert waste on a single waste stream site

Group D: Preparation and restoration of landfill sites or disposal of outputs and residues

- 6a Restore and prepare for aftercare on landfill sites
- 6b Develop schemes for the restoration and aftercare of landfill sites
- 6c Prepare landfill sites for the acceptance of waste

Group E: Environmental protection

- 8L Ensure protection of the environment on landfill sites

Group F: Management

- 9 Support the efficient use of resources (MCI Unit B1)
- 10a Contribute to the selection of personnel for activities (MCI Unit C7)
- 10b Review the performance of teams and individuals
- 12 Provide information to support decision making on a waste management site

ADDITIONAL UNIT

The following unit is not part of the qualification but is available as an additional unit if required:

- 13 Review and develop your performance at work

WAMITAB

Waste Management Industry Training and Advisory Board **Level 3 in Waste Management Operations: Inert Waste Transfer**

MANDATORY UNITS

Candidates must achieve all **FOUR** mandatory units

- 3 Monitor procedures to control risks to health and safety (Employment NTO Unit B)
- 5 Control maintenance and other engineering operations
- 7 Control improvements to waste management operations
- 11 Create effective working relationships (MCI Unit C4)

OPTION UNITS

Candidates must achieve at least **SIX** optional units - one from each of groups A, B, C, D, E and F as shown below:

Group A: Waste reception

- 1In Control the reception of inert waste

Group B: Waste handling

- 2In Control the movement, sorting and storage of inert waste

Group C: Control site operations

- 4TSIn Control site operations for the transfer of inert waste

Group D: Preparation and restoration of landfill sites or disposal of outputs and residues

- 6TSIn Control the disposal of outputs and residues from inert waste transfer and recovery operations

Group E: Environmental protection

- 8In Ensure protection of the environment on inert waste treatment or transfer sites

Group F: Management

- 9 Support the efficient use of resources (MCI Unit B1)
- 10a Contribute to the selection of personnel for activities (MCI Unit C7)
- 10b Review the performance of teams and individuals
- 12 Provide information to support decision making on a waste management site

ADDITIONAL UNIT

The following unit is not part of the qualification but is available as an additional unit if required:

- 13 Review and develop your performance at work

WAMITAB

Waste Management Industry Training and Advisory Board **Level 3 in Waste Management Operations: Inert Waste Treatment**

MANDATORY UNITS

Candidates must achieve all **FOUR** mandatory units

- 3 Monitor procedures to control risks to health and safety (Employment NTO Unit B)
- 5 Control maintenance and other engineering operations
- 7 Control improvements to waste management operations
- 11 Create effective working relationships (MCI Unit C4)

OPTION UNITS

Candidates must achieve at least **SIX** optional units - one from each of groups A, B, C, D, E and F as shown below:

Group A: Waste reception

- 1In Control the reception of inert waste

Group B: Waste handling

- 2In Control the movement, sorting and storage of inert waste

Group C: Control site operations

- 4TMIn Control site operations for the treatment of inert waste

Group D: Preparation and restoration of landfill sites or disposal of outputs and residues

- 6TMIn Control the disposal of outputs and residues from inert waste treatment and recovery operations

Group E: Environmental protection

- 8In Ensure protection of the environment on inert waste treatment or transfer sites

Group F: Management

- 9 Support the efficient use of resources (MCI Unit B1)
- 10a Contribute to the selection of personnel for activities (MCI Unit C7)
- 10b Review the performance of teams and individuals
- 12 Provide information to support decision making on a waste management site

ADDITIONAL UNIT

The following unit is not part of the qualification but is available as an additional unit if required:

- 13 Review and develop your performance at work

WAMITAB

Waste Management Industry Training and Advisory Board *Level 4 in Waste Management Operations: Managing Incineration*

MANDATORY UNITS

Candidates must achieve all **ELEVEN** mandatory units

1H	Control the reception of hazardous waste
2H	Control the movement, sorting and storage of hazardous wastes
3	Monitor procedures to control risks to health and safety (Employment NTO Unit B)
4INC	Control site operations on a waste incineration facility
5	Control maintenance and other engineering operations
6INC	Control the disposal of outputs and residues from waste incineration operations
7	Control improvements to waste management operations
8H	Ensure protection of the environment on hazardous waste treatment or transfer sites
9	Support the efficient use of resources (MCI Unit B1)
11	Create effective working relationships (MCI Unit C4)
12	Provide information to support decision making on a waste management site

OPTION UNITS

Candidates must achieve at least **ONE** of the optional units shown below:

10a	Contribute to the selection of personnel for activities (MCI Unit C7)
10b	Review the performance of teams and individuals

ADDITIONAL UNIT

The following unit is not part of the qualification but is available as an additional unit if required:

13	Review and develop your performance at work
----	---

WAMITAB

Waste Management Industry Training and Advisory Board **Level 4 in Waste Management Operations: Managing Landfill Hazardous Waste**

MANDATORY UNITS

Candidates must achieve all **SEVEN** mandatory units

- 3 Monitor procedures to control risks to health and safety (Employment NTO Unit B)
- 5 Control maintenance and other engineering operations
- 7 Control improvements to waste management operations
- 8L Ensure protection of the environment on landfill sites
- 9 Support the efficient use of resources (MCI Unit B1)
- 11 Create effective working relationships (MCI Unit C4)
- 12 Provide information to support decision making on a waste management site

OPTIONAL UNITS

Candidates must achieve at least **FIVE** optional units - one from each of groups A, B, C, D and E as shown below:

Group A: Waste reception

- 1H Control the reception of hazardous waste

Group B: Waste handling

- 2H Control the movement, sorting and storage of hazardous wastes

Group C: Control site operations

- 4LH Control site operations for the disposal of hazardous waste

Group D: Preparation and restoration of landfill sites

- 6a Restore and prepare for aftercare on landfill sites
- 6b Develop schemes for the restoration and aftercare of landfill sites
- 6c Prepare landfill sites for the acceptance of waste

Group E: Personnel management

- 10a Contribute to the selection of personnel for activities (MCI Unit C7)
- 10b Review the performance of teams and individuals

ADDITIONAL UNIT

The following unit is not part of the qualification but is available as an additional unit if required.

- 13 Review and develop your performance at work

WAMITAB

Waste Management Industry Training and Advisory Board **Level 4 in Waste Management Operations: Managing Landfill Hazardous Waste Single Waste Stream**

MANDATORY UNITS

Candidates must achieve all **SEVEN** mandatory units

- 3 Monitor procedures to control risks to health and safety (Employment NTO Unit B)
- 5 Control maintenance and other engineering operations
- 7 Control improvements to waste management operations
- 8L Ensure protection of the environment on landfill sites
- 9 Support the efficient use of resources (MCI Unit B1)
- 11 Create effective working relationships (MCI Unit C4)
- 12 Provide information to support decision making on a waste management site

OPTIONAL UNITS

Candidates must achieve at least **FIVE** optional units - one from each of groups A, B, C, D and E as shown below:

Group A: Waste reception

- 1SWS-H Control the reception of hazardous waste on a single waste stream site

Group B: Waste handling

- 2SWS-H Control the movement of hazardous waste on a single waste stream site

Group C: Control site operations

- 4SWS-H Control site operations for the disposal of hazardous waste on a single waste stream site

Group D: Preparation and restoration of landfill sites

- 6a Restore and prepare for aftercare on landfill sites
- 6b Develop schemes for the restoration and aftercare of landfill sites
- 6c Prepare landfill sites for the acceptance of waste

Group E: Personnel management

- 10a Contribute to the selection of personnel for activities (MCI Unit C7)
- 10b Review the performance of teams and individuals

ADDITIONAL UNIT

The following unit is not part of the qualification but is available as an additional unit if required.

- 13 Review and develop your performance at work

WAMITAB

Waste Management Industry Training and Advisory Board **Level 4 in Waste Management Operations: Managing Landfill Non-Hazardous Waste**

MANDATORY UNITS

Candidates must achieve all **SEVEN** mandatory units

- 3 Monitor procedures to control risks to health and safety (Employment NTO Unit B)
- 5 Control maintenance and other engineering operations
- 7 Control improvements to waste management operations
- 8L Ensure protection of the environment on landfill sites
- 9 Support the efficient use of resources (MCI Unit B1)
- 11 Create effective working relationships (MCI Unit C4)
- 12 Provide information to support decision making on a waste management site

OPTIONAL UNITS

Candidates must achieve at least **FIVE** optional units - one from each of groups A, B, C, D and E as shown below:

Group A: Waste reception

- 1NH Control the reception of non-hazardous waste

Group B: Waste handling

- 2NH Control the movement, sorting and storage of non-hazardous wastes

Group C: Control site operations

- 4LNH Control site operations for the disposal of non-hazardous waste stream site

Group D: Preparation and restoration of landfill sites

- 6a Restore and prepare for aftercare on landfill sites
- 6b Develop schemes for the restoration and aftercare of landfill sites
- 6c Prepare landfill sites for the acceptance of waste

Group E: Personnel management

- 10a Contribute to the selection of personnel for activities (MCI Unit C7)
- 10b Review the performance of teams and individuals

ADDITIONAL UNIT

The following unit is not part of the qualification but is available as an additional unit if required:

- 13 Review and develop your performance at work

WAMITAB

Waste Management Industry Training and Advisory Board **Level 4 in Waste Management Operations: Managing Landfill Non-Hazardous Waste Single Waste Stream**

MANDATORY UNITS

Candidates must achieve all **SEVEN** mandatory units

- 3 Monitor procedures to control risks to health and safety (Employment NTO Unit B)
- 5 Control maintenance and other engineering operations
- 7 Control improvements to waste management operations
- 8L Ensure protection of the environment on landfill sites
- 9 Support the efficient use of resources (MCI Unit B1)
- 11 Create effective working relationships (MCI Unit C4)
- 12 Provide information to support decision making on a waste management site

OPTIONAL UNITS

Candidates must achieve at least **FIVE** optional units - one from each of groups A, B, C, D and E as shown below:

Group A: Waste reception

- 1SWS-NH Control the reception of non-hazardous waste on a single waste stream site

Group B: Waste handling

- 2SWS-NH Control the movement of non-hazardous waste on a single waste stream site

Group C: Control site operations

- 4SWS-NH Control site operations for the disposal of non-hazardous waste on a single waste stream site

Group D: Preparation and restoration of landfill sites

- 6a Restore and prepare for aftercare on landfill sites
- 6b Develop schemes for the restoration and aftercare of landfill sites
- 6c Prepare landfill sites for the acceptance of waste

Group E: Personnel management

- 10a Contribute to the selection of personnel for activities (MCI Unit C7)
- 10b Review the performance of teams and individuals

ADDITIONAL UNIT

The following unit is not part of the qualification but is available as an additional unit if required:

- 13 Review and develop your performance at work

WAMITAB

Waste Management Industry Training and Advisory Board **Level 4 in Waste Management Operations: Managing Transfer Hazardous Waste**

MANDATORY UNITS

Candidates must achieve all **EIGHT** mandatory units

1H	Control the reception of hazardous waste
2H	Control the movement, sorting and storage of hazardous wastes
3	Monitor procedures to control risks to health and safety (Employment NTO Unit B)
5	Control maintenance and other engineering operations
7	Control improvements to waste management operations
9	Support the efficient use of resources (MCI Unit B1)
11	Create effective working relationships (MCI Unit C4)
12	Provide information to support decision making on a waste management site

OPTIONAL UNITS

Candidates must achieve at least **FOUR** optional units - one from each of groups A, B, C and D as shown below:

Group A: Control site operations

4TSH	Control site operations for the transfer of hazardous waste
------	---

Group B: Control the disposal of outputs and residues

6TSH	Control the disposal of outputs and residues from hazardous waste transfer and recovery operations
------	--

Group C: Environmental protection

8H	Ensure protection of the environment on hazardous waste treatment or transfer sites
----	---

Group D: Personnel management

10a	Contribute to the selection of personnel for activities (MCI Unit C7)
10b	Review the performance of teams and individuals

ADDITIONAL UNIT

The following unit is not part of the qualification but is available as an additional unit if required:

13	Review and develop your performance at work
----	---

WAMITAB

Waste Management Industry Training and Advisory Board **Level 4 in Waste Management Operations: Managing Transfer Hazardous Waste Clinical**

MANDATORY UNITS

Candidates must achieve all **EIGHT** mandatory units

1H	Control the reception of hazardous waste
2H	Control the movement, sorting and storage of hazardous wastes
3	Monitor procedures to control risks to health and safety (Employment NTO Unit B)
5	Control maintenance and other engineering operations
7	Control improvements to waste management operations
9	Support the efficient use of resources (MCI Unit B1)
11	Create effective working relationships (MCI Unit C4)
12	Provide information to support decision making on a waste management site

OPTIONAL UNITS

Candidates must achieve at least **FOUR** optional units - one from each of groups A, B, C and D as shown below:

Group A: Control site operations

4TSC	Control site operations for the transfer of clinical waste
------	--

Group B: Control the disposal of outputs and residues

6TSC	Control the disposal of outputs and residues from clinical waste transfer and recovery operations
------	---

Group C: Environmental protection

8C	Ensure protection of the environment on clinical waste treatment or transfer sites
----	--

Group D: Personnel management

10a	Contribute to the selection of personnel for activities (MCI Unit C7)
10b	Review the performance of teams and individuals

ADDITIONAL UNIT

The following unit is not part of the qualification but is available as an additional unit if required:

13	Review and develop your performance at work
----	---

WAMITAB

Waste Management Industry Training and Advisory Board **Level 4 in Waste Management Operations: Managing Transfer Non-Hazardous Waste**

MANDATORY UNITS

Candidates must achieve all **EIGHT** mandatory units

1NH	Control the reception of non-hazardous waste
2NH	Control the movement, sorting and storage of non-hazardous wastes
3	Monitor procedures to control risks to health and safety (Employment NTO Unit B)
5	Control maintenance and other engineering operations
7	Control improvements to waste management operations
9	Support the efficient use of resources (MCI Unit B1)
11	Create effective working relationships (MCI Unit C4)
12	Provide information to support decision making on a waste management site

OPTIONAL UNITS

Candidates must achieve at least **FOUR** optional units - one from each of groups A, B, C and D as shown below:

Group A: Control site operations

4TSNH	Control site operations for the transfer of non-hazardous waste
-------	---

Group B: Control the disposal of outputs and residues

6TSNH	Control the disposal of outputs and residues from non-hazardous waste transfer and recovery operations
-------	--

Group C: Environmental protection

8NH	Ensure protection of the environment on non-hazardous waste treatment or transfer sites
-----	---

Group D: Personnel management

10a	Contribute to the selection of personnel for activities (MCI Unit C7)
10b	Review the performance of teams and individuals

ADDITIONAL UNIT

The following unit is not part of the qualification but is available as an additional unit if required:

13	Review and develop your performance at work
----	---

WAMITAB

Waste Management Industry Training and Advisory Board **Level 4 in Waste Management Operations: Managing Transfer Non-Hazardous Waste Clinical**

MANDATORY UNITS

Candidates must achieve all **EIGHT** mandatory units

1NH	Control the reception of non-hazardous waste
2NH	Control the movement, sorting and storage of non-hazardous wastes
3	Monitor procedures to control risks to health and safety (Employment NTO Unit B)
5	Control maintenance and other engineering operations
7	Control improvements to waste management operations
9	Support the efficient use of resources (MCI Unit B1)
11	Create effective working relationships (MCI Unit C4)
12	Provide information to support decision making on a waste management site

OPTIONAL UNITS

Candidates must achieve at least **FOUR** optional units - one from each of groups A, B, C and D as shown below:

Group A: Control site operations

4TSC	Control site operations for the transfer of clinical waste
------	--

Group B: Control the disposal of outputs and residues

6TSC	Control the disposal of outputs and residues from clinical waste transfer and recovery operations
------	---

Group C: Environmental protection

8C	Ensure protection of the environment on clinical waste treatment or transfer sites
----	--

Group D: Personnel management

10a	Contribute to the selection of personnel for activities (MCI Unit C7)
10b	Review the performance of teams and individuals

ADDITIONAL UNIT

The following unit is not part of the qualification but is available as an additional unit if required:

13	Review and develop your performance at work
----	---

WAMITAB

Waste Management Industry Training and Advisory Board **Level 4 in Waste Management Operations: Managing Treatment Hazardous Waste**

MANDATORY UNITS

Candidates must achieve all **EIGHT** mandatory units

1H	Control the reception of hazardous waste
2H	Control the movement, sorting and storage of hazardous wastes
3	Monitor procedures to control risks to health and safety (Employment NTO Unit B)
5	Control maintenance and other engineering operations
7	Control improvements to waste management operations
9	Support the efficient use of resources (MCI Unit B1)
11	Create effective working relationships (MCI Unit C4)
12	Provide information to support decision making on a waste management site

OPTIONAL UNITS

Candidates must achieve at least **FOUR** optional units - one from each of groups A, B, C and D as shown below:

Group A: Control site operations

4TMH	Control site operations for the treatment of hazardous waste
------	--

Group B: Control the disposal of outputs and residues

6TMH	Control the disposal of outputs and residues from hazardous waste treatment and recovery operations
------	---

Group C: Environmental protection

8H	Ensure protection of the environment on hazardous waste treatment or transfer sites
----	---

Group D: Personnel management

10a	Contribute to the selection of personnel for activities (MCI Unit C7)
10b	Review the performance of teams and individuals

ADDITIONAL UNIT

The following unit is not part of the qualification but is available as an additional unit if required:

13	Review and develop your performance at work
----	---

WAMITAB

Waste Management Industry Training and Advisory Board **Level 4 in Waste Management Operations: Managing Treatment Hazardous Waste Clinical**

MANDATORY UNITS

Candidates must achieve all **EIGHT** mandatory units

1H	Control the reception of hazardous waste
2H	Control the movement, sorting and storage of hazardous wastes
3	Monitor procedures to control risks to health and safety (Employment NTO Unit B)
5	Control maintenance and other engineering operations
7	Control improvements to waste management operations
9	Support the efficient use of resources (MCI Unit B1)
11	Create effective working relationships (MCI Unit C4)
12	Provide information to support decision making on a waste management site

OPTIONAL UNITS

Candidates must achieve at least **FOUR** optional units - one from each of groups A, B, C and D as shown below:

Group A: Control site operations

4TMC Control site operations for the treatment of clinical waste

Group B: Control the disposal of outputs and residues

6TMC Control the disposal of outputs and residues from clinical waste treatment and recovery operations

Group C: Environmental protection

8C Ensure protection of the environment on clinical waste treatment or transfer sites

Group D: Personnel management

10a Contribute to the selection of personnel for activities (MCI Unit C7)

10b Review the performance of teams and individuals

ADDITIONAL UNIT

The following unit is not part of the qualification but is available as an additional unit if required:

13 Review and develop your performance at work

WAMITAB

Waste Management Industry Training and Advisory Board **Level 4 in Waste Management Operations: Managing Treatment Hazardous Waste Remediation of Contaminated Land**

MANDATORY UNITS

Candidates must achieve all **EIGHT** mandatory units

1H	Control the reception of hazardous waste
2H	Control the movement, sorting and storage of hazardous wastes
3	Monitor procedures to control risks to health and safety (Employment NTO Unit B)
5	Control maintenance and other engineering operations
7	Control improvements to waste management operations
9	Support the efficient use of resources (MCI Unit B1)
11	Create effective working relationships (MCI Unit C4)
12	Provide information to support decision making on a waste management site

OPTIONAL UNITS

Candidates must achieve at least **FOUR** optional units - one from each of groups A, B, C and D as shown below:

Group A: Control site operations

4TMCL	Control site operations for the remediation of contaminated land
-------	--

Group B: Control the disposal of outputs and residues

6TMCL	Control the disposal of outputs and residues from the remediation of contaminated land
-------	--

Group C: Environmental protection

8H	Ensure protection of the environment on hazardous waste treatment or transfer sites
----	---

Group D: Personnel management

10a	Contribute to the selection of personnel for activities (MCI Unit C7)
10b	Review the performance of teams and individuals

ADDITIONAL UNIT

The following unit is not part of the qualification but is available as an additional unit if required:

13	Review and develop your performance at work
----	---

WAMITAB

Waste Management Industry Training and Advisory Board

Level 4 in Waste Management Operations: Managing Treatment Non-Hazardous Waste

MANDATORY UNITS

Candidates must achieve all **EIGHT** mandatory units

1NH	Control the reception of non-hazardous waste
2NH	Control the movement, sorting and storage of non-hazardous wastes
3	Monitor procedures to control risks to health and safety (Employment NTO Unit B)
5	Control maintenance and other engineering operations
7	Control improvements to waste management operations
9	Support the efficient use of resources (MCI Unit B1)
11	Create effective working relationships (MCI Unit C4)
12	Provide information to support decision making on a waste management site

OPTIONAL UNITS

Candidates must achieve at least **FOUR** optional units - one from each of groups A, B, C and D as shown below:

Group A: Control site operations

4TMNH	Control site operations for the treatment of non-hazardous waste
-------	--

Group B: Control the disposal of outputs and residues

6TMNH	Control the disposal of outputs and residues from non-hazardous waste treatment and recovery operations
-------	---

Group C: Environmental protection

8NH	Ensure protection of the environment on non-hazardous waste treatment or transfer sites
-----	---

Group D: Personnel management

10a	Contribute to the selection of personnel for activities (MCI Unit C7)
10b	Review the performance of teams and individuals

ADDITIONAL UNIT

The following unit is not part of the qualification but is available as an additional unit if required:

13	Review and develop your performance at work
----	---

WAMITAB

Waste Management Industry Training and Advisory Board **Level 4 in Waste Management Operations: Managing Treatment Non-Hazardous Waste Clinical**

MANDATORY UNITS

Candidates must achieve all **EIGHT** mandatory units

1NH	Control the reception of non-hazardous waste
2NH	Control the movement, sorting and storage of non-hazardous wastes
3	Monitor procedures to control risks to health and safety (Employment NTO Unit B)
5	Control maintenance and other engineering operations
7	Control improvements to waste management operations
9	Support the efficient use of resources (MCI Unit B1)
11	Create effective working relationships (MCI Unit C4)
12	Provide information to support decision making on a waste management site

OPTIONAL UNITS

Candidates must achieve at least **FOUR** optional units - one from each of groups A, B, C and D as shown below:

Group A: Control site operations

4TMC	Control site operations for the treatment of clinical waste
------	---

Group B: Control the disposal of outputs and residues

6TMC	Control the disposal of outputs and residues from clinical waste treatment and recovery operations
------	--

Group C: Environmental protection

8C	Ensure protection of the environment on clinical waste treatment or transfer sites
----	--

Group D: Personnel management

10a	Contribute to the selection of personnel for activities (MCI Unit C7)
10b	Review the performance of teams and individuals

ADDITIONAL UNIT

The following unit is not part of the qualification but is available as an additional unit if required:

13	Review and develop your performance at work
----	---

WAMITAB

Waste Management Industry Training and Advisory Board **Level 4 in Waste Management Operations: Managing Treatment Non-Hazardous Waste Composting**

MANDATORY UNITS

Candidates must achieve all **EIGHT** mandatory units

1NH	Control the reception of non-hazardous waste
2NH	Control the movement, sorting and storage of non-hazardous wastes
3	Monitor procedures to control risks to health and safety (Employment NTO Unit B)
5	Control maintenance and other engineering operations
7	Control improvements to waste management operations
9	Support the efficient use of resources (MCI Unit B1)
11	Create effective working relationships (MCI Unit C4)
12	Provide information to support decision making on a waste management site

OPTIONAL UNITS

Candidates must achieve at least **FOUR** optional units - one from each of groups A, B, C and D as shown below:

Group A: Control site operations

4COM	Control site operations for the composting of biodegradable waste
------	---

Group B: Control the disposal of outputs and residues

6COM	Control the disposal of outputs and residues from a composting facility
------	---

Group C: Environmental protection

8NH	Ensure protection of the environment on non-hazardous waste treatment or transfer sites
-----	---

Group D: Personnel management

10a	Contribute to the selection of personnel for activities (MCI Unit C7)
10b	Review the performance of teams and individuals

ADDITIONAL UNIT

The following unit is not part of the qualification but is available as an additional unit if required:

13	Review and develop your performance at work
----	---

WAMITAB

Waste Management Industry Training and Advisory Board **Level 4 in Waste Management Operations: Managing Treatment Non-Hazardous Waste Remediation of Contaminated Land**

MANDATORY UNITS

Candidates must achieve all **EIGHT** mandatory units

1NH	Control the reception of non-hazardous waste
2NH	Control the movement, sorting and storage of non-hazardous wastes
3	Monitor procedures to control risks to health and safety (Employment NTO Unit B)
5	Control maintenance and other engineering operations
7	Control improvements to waste management operations
9	Support the efficient use of resources (MCI Unit B1)
11	Create effective working relationships (MCI Unit C4)
12	Provide information to support decision making on a waste management site

OPTIONAL UNITS
