Waste Management Industry Training and Advisory Board

## WAMITAB Level NVQ Diploma in Removing Non-hazardous Wastes (Construction)

### Who is it for?

This qualification is designed for those working in waste removal/construction roles, who need to gain the skills, knowledge and competence to undertake non-hazardous waste removal safely and in accordance with employer requirements.

### Can anyone do it?

There are no entry requirements for this qualification, though candidates will need to be employed in a suitable position, as it is assessed 'on-the-job'.

### What does it cover and how will I learn?

The qualification covers the necessary competencies to remove non-hazardous waste safely and efficiently. It is assessed 'on-the-job' and learning will take place naturally as part of the normal working environment and routine.

### How will I be tested?

An assessor will visit your workplace to observe your work 'on-the-job'. You will compile a 'portfolio of evidence' which will demonstrate that you have the knowledge and competence necessary to meet the standard set in the qualification.

### What next?

The qualification provides progression opportunities by utilising units that are common to other waste management QCF qualifications.

WAMITAB has a national network of Approved Centres which are available to support you as you progress in employment and education.
